Executive Summary

The Annual Employment Survey provides an analysis of employment levels in Industrial (including Primary Production¹) and Services companies under the remit of IDA Ireland, Enterprise Ireland and Údarás na Gaeltachta. This 2025 Annual Employment Survey report looks at employment trends over the 10-year period from 2016 to 2025. The main findings of the 2025 survey are set out below.

Overall Employment

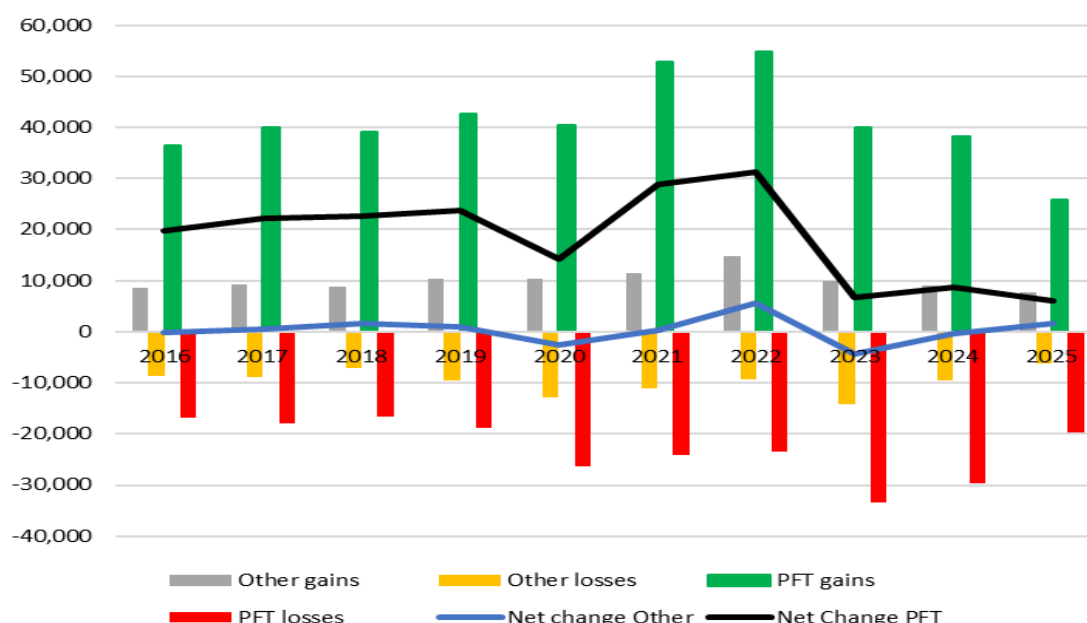

Total permanent, full-time employment (PFT) in agency-assisted companies operating in the Industrial and Services sectors amounted to 511,786 in 2025, an increase of 1.2% (6,042 jobs) on 2024 employment levels, continuing the trend of growth in employment since 2016.

Figure A: Total Full-time and Part-time, Temporary Jobs in Agency-assisted firms, 2016-2025

¹ Primary production is made up of Agriculture, Fishing, Forestry, Mining & Quarrying

Figure B: Jobs Gains, Losses and Net Change in Full-time and Part-time Employment in All Agency-assisted Firms, 2016-2025

Gross PFT job gains for 2025 are 25,840, which is down on the 2024 figure of 38,303 and gross PFT job losses were -19,798 down from -29,572 in 2024. Part-time and temporary employment in agency-assisted firms increased by 1,594 jobs in 2025 to 42,822. This brings total employment to 554,608 in 2025, an increase of 1.4% compared to 2024.

Total permanent, full-time employment among Irish-owned companies amounted to 205,107 in 2025, an increase of 2,194 jobs (1.1%) compared to 2024. Irish owned companies have grown employment in every year over the past decade. Irish-owned companies account for 40.1% of total full-time employment in agency-assisted firms in 2025 compared with a 41.5% share in 2016. Permanent full-time employment in Irish-owned firms increased by 61,079 or 42.4% between 2016 and 2025, from 144,028 to 205,107 respectively. Part-time temporary jobs increased by 853 jobs in 2025 to reach 24,213.

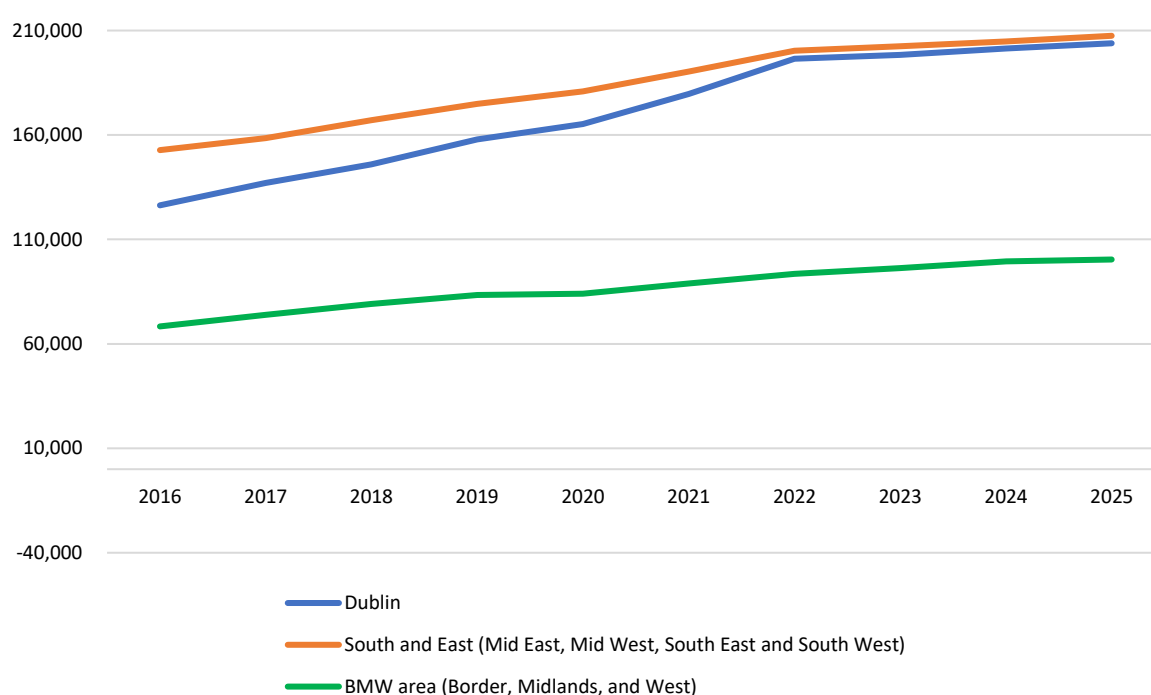

Among foreign-owned companies, total permanent, full-time employment amounted to 306,679. In 2025, there was an increase of 3,848 jobs (1.3%) over the previous year and it continued the trend of growth over the past decade. Permanent full-time employment in foreign-owned firms stood at 203,412 in 2016 and increased by 50.8% or 103,267 jobs by 2025. Part-time, temporary employment in foreign-owned firms increased by 741 jobs (4.1%) since 2024.

Regional Employment

The Border Midlands and West (BMW), Dublin, and the South and East (S&E) regions all saw increases in employment compared to 2024 levels. Employment has grown in every year in those regions over the past decade.

The South and East (S&E) region remains the largest region in terms of employment, accounting for 207,495 jobs, or 40.5% of total agency full-time employment, followed by the Dublin region with 203,901 full-time jobs (39.8%) and the Border, Midlands and West (BMW) region with 100,390 employed (19.6%). Over the 10-year period, 2025 is the year with the highest level of employment for all regions.

Figure C: Trends in Permanent, Full-Time Employment in All Agency-Assisted Firms by Region, 2016-2025

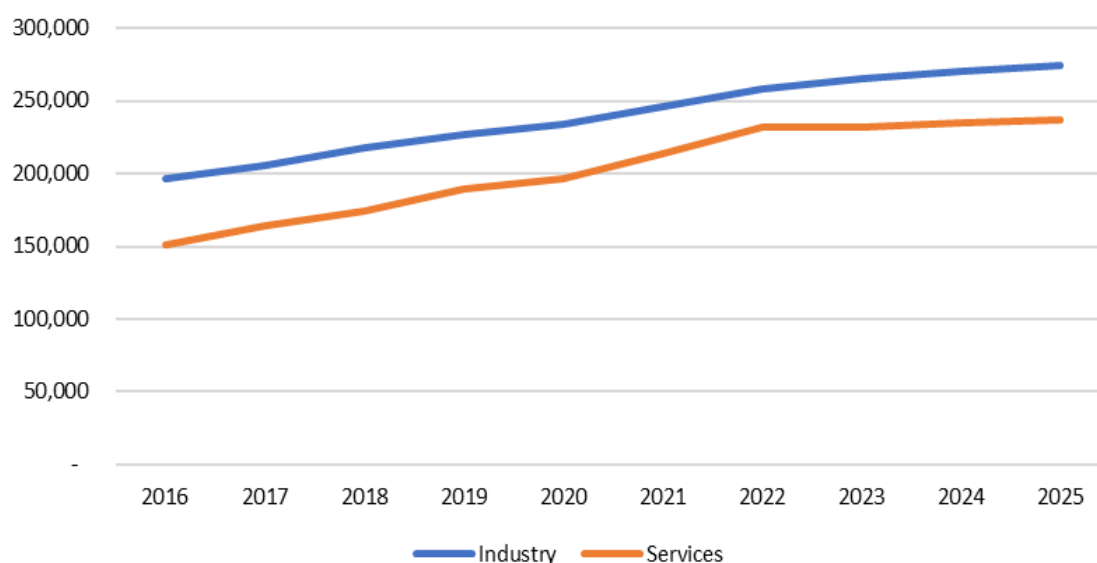

Irish-owned firms located in the S&E accounted for 44.8% (91,847 jobs) of total Irish-owned full-time employment in 2025, up from 90,383 jobs in 2024 or an increase of 1.6%. The BMW region accounted for 23.5% (48,287 jobs) of Irish-owned firms' employment in 2025, up 651 (1.4%) jobs since 2024. Dublin-based Irish-owned client companies accounted for 64,973 jobs in 2025 (31.7% of the total), up 79 jobs (0.1%) in 2025.

Foreign-owned Industrial and Services firms located in the S&E accounted for 115,648 full-time jobs in 2025 (37.7% of all regions), up 1,193 jobs (1.0%) on the previous year. In overall terms, the BMW region's share of full-time employment in foreign-owned companies is 17.0% with 52,103 jobs. Permanent full-time jobs in the BMW region have been on an increasing trajectory since 2016. Foreign-owned client companies in the Dublin region accounted for 138,928 full-time jobs, up 1.7% on 2024 and up 67.3% over the decade. Dublin holds the highest share of foreign-owned employment at 45.3%.

Sectoral Employment

The sectoral employment breakdown shows evidence of continuing structural change in agency-assisted companies towards Services sectors, particularly in the foreign-owned sector. Full-time employment in all Industrial sector companies increased to 274,702 in 2025, up from 270,503 in 2024 (a rise of 4,199 or 1.6%). Services employment increased to 237,084 in 2025, up from 235,241 in 2024 (an increase of 1,843 jobs or 0.8%).

Introduction

This document sets out the results of the 2025 Department of Enterprise, Tourism and Employment (DETE) Annual Employment Survey. The survey is an annual census of employment in all Manufacturing and Services companies supported by the enterprise development agencies (IDA Ireland, Enterprise Ireland, and Údarás na Gaeltachta). The survey has been carried out each year since 1972. DETE, in line with its mandate to co-ordinate the activities of Enterprise Ireland and IDA Ireland, continues to carry out the survey with the co-operation of Enterprise Ireland and IDA Ireland regional staff. Údarás na Gaeltachta carries out the survey for companies falling within its remit and provides the results for inclusion in the DETE database.

The data is presented by nationality of ownership rather than in terms of the parent development agency, and hence the cohort of foreign-owned firms includes food and beverages and natural resource subsidiaries of overseas firms that are supported by Enterprise Ireland.

The structure of the main body of the report is as follows:

- Section 1 provides overall employment trends in Manufacturing and Services sectors, the results of which are broken down on the basis of Irish and foreign ownership. Data on part-time, temporary and short-term contract employment are also provided for companies within the remit of Enterprise Ireland, IDA Ireland and Údarás na Gaeltachta.
- Section 2 provides a regional analysis of permanent/full-time employment.
- Section 3 analyses the permanent/full-time employment data on the basis of industrial and services sector.

It should be noted that employment figures in this document may differ from those previously reported at year-ends due to factors such as the inclusion of new companies on the agency client lists, revisions made by companies during the survey or the transfer of companies between Irish and foreign ownership at the end of each survey year.

ISSCOP in Annual Employment Survey

As outlined in its Statement of Strategy 2025-2028 document, the Department of Enterprise, Tourism and Employment is committed to upholding its values of independence, equality, integrity, and impartiality, and to maintaining the highest standards of professionalism, honesty, objectivity and quality. The Department has signed a statement of commitment² to the principles set out in the Irish Statistical System Code of Practice (ISSCOP)³. In subscribing to these principles, the Department demonstrates its commitment to improving trust and confidence in the independence, integrity and accountability of the Statistical System and in the credibility and quality of the statistics that we produce and disseminate.

A new webpage on the Department's website has been created to outline the controls in relation to quality and methodology that are in place for the ABSEI and AES surveys. A link to this webpage is provided [here](#). This webpage outlines the Department's policies in relation to statistical quality,

² <https://enterprise.gov.ie/en/What-We-Do/The-Business-Environment/Surveys-and-Data/ISSCoP-for-Official-Statistics.pdf>

³ <https://www.isscop.ie/>

confidentiality, revisions, access to data and dissemination of results. It includes greater detail on methodology and lists the quality assurance mechanisms that are in place.

In addition to the new webpage on quality and methodology, we have undertaken several steps to improve the quality of surveys and to bring them in line with the specifications of ISSCOP. A process map has been produced which is aligned with the General Statistical Business Process Model (GSBPM). We are implementing more rigorous statistical disclosure controls to protect the confidentiality of our data suppliers, including greater aggregation of classifications as well as primary and secondary cell suppression. Additional measures have been put in place to ensure that survey outputs are accessible to and reusable by the widest possible audience.

The Department of Enterprise, Tourism and Employment would like to thank the many respondents to this survey who have taken the time to gather information and complete the data requests for this key area of Government policy.

Appendix C: Methodology and Definitions

C1 Overview of Methodology and Definitions

The Annual Employment Survey is carried out by email and an extensive telephone follow-up.

In line with previous years, census returns as at 31st October for Permanent, Full-time and for, Part-time, Temporary and Short-Term Contract employment combined were sought.

In the presentation of the results, we have reflected the nationality of any companies at the time of reporting. In the light of changes of ownership, the inclusion of new companies and the correction of identified errors, historic employment figures have been restated where appropriate. Therefore, the figures may differ from those previously reported.

C2 Definitions

- Permanent, Full-time: Employees who have been employed full time for nine months or longer or who will be on contracts of nine months or longer on 31st October 2025.

C3 ISSCOP in Annual Employment Survey

As outlined in its Statement of Strategy 2025-2028 document, the Department of Enterprise, Tourism and Employment is committed to upholding its values of independence, equality, integrity, and impartiality, and to maintaining the highest standards of professionalism, honesty, objectivity and quality. The Department has signed a statement of commitment⁴ to the principles set out in the Irish Statistical System Code of Practice (ISSCOP)⁵. In subscribing to these principles, the Department demonstrates its commitment to improving trust and confidence in the independence, integrity and accountability of the Statistical System and in the credibility and quality of the statistics that we produce and disseminate.

⁵ <https://www.isscop.ie/>

A new webpage on the Department's website has been created to outline the controls in relation to quality and methodology that are in place for the ABSEI and AES surveys. A link to this webpage is provided here. This webpage outlines the Department's policies in relation to statistical quality, confidentiality, revisions, access to data and dissemination of results. It includes greater detail on methodology and lists the quality assurance mechanisms that are in place.

In addition to the new webpage on quality and methodology, we have undertaken several steps to improve the quality of surveys and to bring them in line with the specifications of ISSCOP. A process map has been produced which is aligned with the General Statistical Business Process Model (GSBPM). We are implementing more rigorous statistical disclosure controls to protect the confidentiality of our data suppliers, including greater aggregation of classifications as well as primary and secondary cell suppression. Additional measures have been put in place to ensure that survey outputs are accessible to and reusable by the widest possible audience.

C4 Definitions of active engagement

From DETE's point of view the purpose of the Annual Employment Survey is to measure the employment performance of companies that ever received support from the agencies and that are still eligible to be agency clients (i.e. companies that are still in manufacturing or internationally traded services). This data can then be used to evaluate agency performance and to inform enterprise policy making. However, the agencies would like to report on the employment performance of the clients that they are currently actively engaged with rather than all companies that ever received their support. To resolve this issue, we created two categories of companies in the AES:

1. Companies that ever received a support from the agencies and that are still eligible for agency support; and
2. Companies that are currently actively engaged with the enterprise agencies.

This will allow us to retain a larger database of companies that ever received agency support and allow the agencies to publish results on their actively engaged clients.

We have asked the agencies to provide a definition for their actively engaged clients. We have asked that any definition of active engagement can be supported by documentation and can be audited by DETE. The definitions of active engagement for each agency are attached in appendix 1. Clients that are not actively engaged but that are still trading and eligible for agency support will stay on the survey population and will continue to be surveyed but will not be counted by the agencies in their end of year results. The number of firms that fall into this category is small and accordingly account for a small number of jobs. For example, for IDA in 2022 only 27 companies with 789 jobs are not actively engaged with the agencies but are still eligible for agency support. EI companies are not affected this year as they will review their survey population for active and inactive clients at the start of each corporate strategy. EI reviewed their population last year for their current strategy.

DETE will publish the results on actively engaged clients for all three agencies in its Annual Employment Survey report. The larger database of companies that have ever received agency support will be made available to researchers on-site at the hotdesk in Kildare Street.

IDA Ireland

IDA's defines actively engaged clients as companies that have one of the following:

- Have completed the AES return in the previous 3 years;
- Have a project approval by the MIC in the previous 10 years;
- Have a received a payment request in the previous 10 years.

Enterprise Ireland

At the start of each EI strategy EI defines actively engaged clients as:

- Companies that are eligible for EI support (established manufacturing and internationally trading services companies; HPSUs, foreign owned food and natural resource companies);
and
- Companies that have made an AES return in the previous three years or have had some documented engagement with EI in the previous five years.

Údarás na Gaeltachta

Údarás defines actively engaged clients as those firms that have one of the following:

- A grant/premises approval or payment in the last 5 years;
- Active / regular engagement (documented for audit purposes) with Údarás na Gaeltachta Executives;
- Feedback from Client regarding AES within the last 5 years. (Not feedback from the executive).

Annual Employment Survey 2025

Agency workers are staff hired from a recruitment agency normally working temporarily for an employer. While not generally on a firm's payroll, the number of agency staff should be recorded on the Employment Survey in the same manner as other directly employed staff, i.e. if they are full-time (as defined above), they should be counted as 'Full-time Employees'. Otherwise, they should be included in the 'Other Employees' category. For recruitment agencies undertaking the Employment Survey, only core retained staff should be recorded. Please do not include outsourced staff working in client firms.
