In Q1 2026, MFI continued to engage in a range of Marketing and PR activities, as well as new initiatives.

TV Advertising:

In November 2025 we ran a national TV advertising for the first time on Virgin Media and Sky TV. This was on the AdSense platform and targeted to those with a “business interest” profile. The response was very positive, and a larger scale Media campaign, starting with Press and Outdoor went live at the end of Q1 2026, with TV advertising (AdSense and Video on Demand) to go live at start of Q2.

Digital Advertising /social media:

We continue with ongoing promotion through our social media channels, Facebook, Instagram, YouTube, Twitter, TikTok and LinkedIn to maintain strong brand awareness with paid digital advertising campaigns primarily focused on Google, YouTube and Meta.

Events/Webinars/Sponsorships:

We continue our representation at in person events and webinars.

We sponsored the “Emerging New Business” Category of the SFA National Small Business Awards and the Gala Awards night was held in the RDS on March 5th where we presented the 5 finalists with their awards.

We held a webinar for International Women’s Day on Friday March 6th, with previous MFI client, Siobhan Berry Founder of MummyCooks as our guest speaker. We had 245 Registrations and 103 attendees which was our highest attendees to date.

Customer Experience & Surveys

In Q1 we have continued to make customer experience (CX) improvements on our Application portal after a CX review in 2025. We have also made some Accessibility change requests to our website also to ensure it meets WCAG AA requirements. The CX and UX enhancements will continue in Q2 to ensure we are presenting the most efficient journey for our applicants. Further Customer Insight and Brand Barometer Surveys are planned for Q2 2026.

Performance:

Application levels in Q1 were strong and in line with our targets which we believe reflects our Q4 2025 advertising and marketing activities. Application numbers and values in Q1 were c. 21% ahead of the corresponding period in 2025.

Our approval rate for the quarter at 42% is running slightly below the long-term average and continues to be impacted by applications where not all the documentation is submitted and need to be withdrawn without being assessed. We also continue to see applications that our outside our eligibility criteria which are also withdrawn prior to assessment. We have an outreach program to encourage and assist applicants submit documentation and are reviewing other methods of assisting applicants with their applications. Our approval rate for loans that are assessed is in the mid 60% which is in line with long term averages.

Start Up’s accounted for c. 59% of approvals in the quarter.

In the year to date, applications from Female business owners accounted for over 30% of all applications.

Year to date loans to businesses located outside of Dublin accounted for c. 76% of all loans which is in line with historic numbers.

Appeals Process

The purpose of the Microfinance Ireland appeals process is to support an applicant who wishes to have a review of an MFI decision to declining a loan application.

MFI will appoint an Appeal Assessor to carry out an independent review of the original loan decision. The assessor who was involved in the original decision will not be involved in the appeals process. The outcome of this review is communicated in writing to the applicant within 15 business days of receipt of the written appeal. The credit decision of the Appeal Assessor is independent of MFI management and is final. There have been 15 appeals in 2026 and 3 of these cases have been approved on appeal. These figures are included in the YTD approval figures.

Complaints

No complaints have been received by the business in 2026.

Business Failures

During 2026, 8 businesses of our borrowers have failed. While any business failure is regrettable, it was anticipated from the outset that a not insignificant proportion of projects supported by the Microfinance Ireland might fail. It is a feature of microfinance (given the higher risk profile) that even with strong business supports, failures will occur.

On an ongoing basis, Microfinance Ireland, in conjunction with other agencies, works with every customer at risk to minimise business failure.
